Re: Docket No. 07-0566 – Third-Party Facilitator for AMI Workshops

Dear Mr. Garcia:

Pursuant to the Illinois Commerce Commission's final order in Docket No. 07-0566, I am hereby advising Commonwealth Edison Company and all interested parties of my selection of the candidate determined to be the most qualified to serve as third-party facilitator for the AMI Workshops.

All information provided by interested parties and potential candidates was considered by me in making this selection. While all of the potential candidates recommended by interested parties were qualified to serve as third-party facilitator based on the information I received, I have determined that Mark Gabriel of Plexus Research, an RW Beck Company, is the candidate most qualified to serve as third-party facilitator for the AMI Workshops. Among the factors considered in selecting Mr. Gabriel of Plexus Research were the extensive expertise and knowledge of Mr. Gabriel and Plexus Research regarding the technical issues that will need to be considered as part of the AMI Workshops, their experience in facilitating stakeholder input and consensus building among diverse constituencies, their depth of resources in terms of qualified personnel and availability to conduct the AMI Workshops in a timely manner, and the ability to be an impartial and objective facilitator.

Sincerely,

A handwritten signature in black ink, appearing to read "Tim Anderson", written over a horizontal line.

Tim Anderson
Executive Director
Illinois Commerce Commission

Mr. Garcia
